Anatomy of a BBQ Island

Quality standards are at the core of every Cal Flame outdoor kitchen. From the inside out, the quality construction is undeniable. Each barbecue island begins with a sturdy metal frame constructed from commercial-grade 16-gauge galvanized steel. The island is then dressed in Hardibacker ceramic tile backer board for added durability and moisture resistance. Additionally, your outdoor kitchen is finished in the material of your choice and fitted with the cooking equipment you selected. Best of all, with premium electronic options to choose from, you can build a complete entertainment center outdoors!

COUNTER TOP DESIGN STYLES

Cal Flame offers a wide selection of Natural Stone Tiles and Porcelain Tiles to choose from, ask your authorized Cal Flame Dealer for color samples.

16-GAUGE GALVANIZED STEEL FRAME

For long lasting integrity, the BBQ island frame is manufactured with fully-welded 16-gauge galvanized steel.

HARDIBACKER CERAMIC TILE BACKER BOARD

Moisture-resistance and durability make Hardibacker ceramic tile backer board the perfect base to your create your island's customized finish.
