YOUTH *Hydrotherapy*

Fountain of Youth™ Miracle Reverse Age System powered by MicroSilk®

MicroSilk® is a new patented hydrotherapy that rejuvenates your body and skin, making you look younger and feel better. The gentle effervescent sensation and silky feel of the water are signs that your body is benefiting from the super saturated water with billions of oxygen-rich micro bubbles. These micro-bubbles, increase oxygen levels in the water and blankets your body, energizing skin cells, stimulating the immune system and collagen production, killing bacteria and promoting healing. Hydrate your body, plump your skin, and reduce fine lines and wrinkles with the Fountain of Youth™.

The #1 Hydrotherapy Choice

- Billions of microbubbles™ are released into the spa, forming a gentle cloud suspended in the spa water.
- Fountain of Youth™ is a combination of warm water and air jet hydrotherapy.
- Fountain of Youth™ is the quietest form of active hydrotherapy and can be combined with any other form of hydrotherapy.

The Science of Microbubbles™

- A microbubble™ is a small air bubble that is approximately 50 microns or less in size.
- Microbubbles™ are negatively charged, which attracts them to your skin's pores and impurities.
- Microbubbles™ remain suspended in the spa water for an extended period of time.
- Microbubbles™ collapse in water.
- A typical air bubble is 50 to 100 times larger.

Warm Water Hydrotherapy
