Cal Spas® is proud to introduce the more spacious and more efficient, Connect™ Series 851 Bench Spa.

Cal Spas® Modernizes Popular Hot Tub

Leading spa manufacturer redesigns popular hot tub to enhance consumer's hot tub experience

Pomona, CA — (May 11, 2015) Cal Spas®, the world leader in innovative Home Resort products, proudly introduces the reimagined Connect™ 851 Bench spa. The new Connect™ 851 Bench spa is the reflection of progress from their already popular Connect™ 850 Bench Spa and Connect™ 836 Bench Spa, both of which will retire on June 1, 2015 to allow room for additional upgraded products.

“The Connect™ 851 Bench Spa is the most spacious 8-foot spa ever created! The higher performing hot tub provides users with an intense hydrotherapeutic experience that wouldn't be complete without a larger interior for more space to indulge,” says Casey Loyd, President of local manufacturer, Cal Spas®. “The new Connect™ 851 Spa with available upgrades is an example of the persistence Cal Spas® puts forth to provide consumers the best products in the spa market.”

The 8-foot Connect™ 851 Bench Spa allows up to 6 users to unwind in style among the 51 candy cane stainless-steel jets, while larger headrests provide for better neck support, and an LED curved cascade waterfall feature adds a soothing tone to the hot tub experience. A new mold features wider seats for increased personal space and a larger foot well for even more leg room and comfort.

Each seat in the new spa delivers targeted muscle relief with hydrotherapy jets that have been rearranged in patterns that deliver a better massage experience. The new hot tub also contains a larger capacity filter for more efficient filtration which reduces the need to drain the unit which will save the consumer time and money in the long run.
